## **KATE TOWERZEY**

Kate Towerzey is an experienced project manager and administrator working in this field for over 20 years. She has worked for both small and large, public and private sector organisations in her career including The British National Oil Corporation, EMI Records, Polygram Records, Displaybox (a small independently run display company) and Minty & Friend (a disability and diversity training company).

While her two children were young she worked for six years as a School Administrative Officer in a local special needs school. Working at the school

increased her interest in disability issues and led to her taking the opportunity of working for Minty & Friend for 5 years.

She started as Administration Manager on the Reasonable Adjustments Service in charge of a team of administrators and then moved to the Training and Consultancy side of the business as Project Manager responsible for the smooth running of all their disability and diversity training and consultancy projects nationally, co-ordinating two directors and a national team of 30 associate consultants and trainers.

Highlights to her career include organising a two day annual conference event for Polygram Records that concluded with a gala dinner and entertainment event for staff and artists with 1,200 attending at The Grosvenor Hotel in London and setting up of all the office and administration procedures at the inception of a new display company for the record industry, where she held the post of Office Manager.

In July 2008, Kate made the decision to join 8pr to provide logistical support and project management experience.
